Bike Path MEP 126 0-000-000.126

Rick Kiikvee continued welding utility outlets on sections of 4" CA line to be installed along the bike path. Dave Law assisted this operation and assisted Narciso Biagi in adjusting the carbon steel piping at various locations which had been off-set due to load transfer.

Bill O'Sullivan sent an email requesting to substitute a Category #7648 3/4" x 8.5" power stud for attaching the PS-18 pipe support plate at W2E, in lieu of the Category #ESR-3067 which is specified in the response to RFI 2464R00. Adil Mohammed approved this substitution in an email of 4/4/2013, with the proviso that the plate be attached with the dimensions he sent with the email.
